

RHISHINATHVARMA MARIMUTHU

Senior Security Engineer | Offensive Security & Application Security Specialist | OWASP Chapter Lead

Salem, Tamil Nadu, India | (+91) 7402664313 | rhishinathvarma@outlook.com | [linkedin.com](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

High-impact Offensive Security Engineer with 5+ years of hands-on expertise in Web & Mobile Application Security (VAPT), Secure Code Review (SAST/DAST), API Penetration Testing. Recognized among the Top 15 Security Researchers in India by NCIIPC and officially commended by NASA, Government of India, and global agencies for remediating critical attack vectors across 300+ platforms. Proven track record of spearheading incident response war rooms, embedding 'Security by Design' across enterprise engineering teams, aligning cybersecurity posture with enterprise business risk.

TECHNICAL SKILLS

- **Offensive Security & Auditing:** Web & Mobile VAPT, RESTful & GraphQL API Penetration Testing, Secure Code Review (SCR), Threat Intelligence, Network VAPT, Thick client pen testing, Cloud configuration Audit, Red Teaming, Infrastructure Configuration Audit and VAPT, Network Configuration Audits, Phishing Simulation, SEBI Compliance Audits, SOC L2/L3 Architecture.
- **AI off sec Tools:** Created agents for mobile apps such as android and IOS where agent will do SAST and DAST, API Security agent will do API security completely end to end and last SAST Agent will do Complete SAST for web apps.
- **Security Tools & Frameworks:** Burp Suite Pro, OWASP ZAP, Nessus, Postman, Fortify, Checkmarx, Ghidra, Frida, MobSF, Objection, apk-mitm, Wazuh (SIEM), Nmap, Flipper Zero, Wireshark, Metasploit.
- **Industry Standards & Methodologies:** OWASP Top 10, SANS Top 25, NIST Cybersecurity Framework (CSF), PTES, CWE/SANS, DevSecOps integration.
- **Environments & Firewalls:** Kali Linux, Parrot OS, Ubuntu/Debian, Windows Server, macOS, Fortinet Firewalls (FortiGate 40F), Sophos XG Firewalls.

PROFESSIONAL EXPERIENCE

Cognizant Technology Solutions | Associate – Projects (Security Engineer)

Aug 2025 – Present

- **Application Penetration Testing:** Executed comprehensive vulnerability assessments and penetration tests across enterprise web applications and GraphQL/RESTful APIs, isolating and remediating OWASP Top 10 vulnerabilities (SQLi, XSS, SSRF, Broken Access Control, IDOR).
- **AI & LLM usage in project:** Created API off sec product for the project; Recon Extension for web application like it to recon tech stacks, known CVE and crawl and detect, report; Android app Exploitation product where it recons and scan then give exploit and report.
- **Mobile Security Analysis:** Conducted in-depth static (SAST) and dynamic (DAST) analysis on iOS and Android enterprise apps, bypassing certificate pinning mechanisms and eliminating critical data-at-rest leakage vectors.
- **Incident Response & War Room Leadership:** Spearheaded technical 'War Room' triage sessions during critical vulnerability incidents, providing real-time containment strategies and reducing patch cycle turnaround times.
- **DevSecOps & Cross-Functional Alignment:** Facilitated structured 'Breakout' sessions with engineering and DevOps squads, delivering clear architectural code remediation guidance directly within Jira lifecycles.
- **Executive Reporting & Training:** Authored executive risk dashboards and delivered targeted 'Security by Design' training modules for developers, reducing recurring secure coding bugs across sprint cycles.
- **Key Recognition:** Awarded Best Performer of the Quarter (Q1 2026) by Cognizant Security Leadership for exemplary client engagement and risk reduction.

- **Client Engagements:** Led end-to-end security assessments for 40+ web applications and 25+ mobile applications across FinTech, E-commerce, and enterprise B2C verticals with 100% on-time project delivery.
- **SIEM & SOC Architecture:** Engineered Wazuh SIEM log harvesting pipelines and centralized monitoring dashboards, substantially enhancing enterprise real-time threat visibility.
- **Source Code Review & Phishing Simulations:** Executed Secure Code Reviews (SCR) across polyglot codebases (Java, Node.js, Python) and conducted realistic spear-phishing campaigns for 10+ corporate clients.
- **Compliance & Cloud Audits:** Conducted network configuration audits, SEBI regulatory compliance assessments, and cloud infrastructure posture evaluations.

- **Offensive Security:** Executed vulnerability assessments and penetration tests for web and mobile applications under OWASP, NIST, and PTES standards.
- **Firewall & SOC Integration:** Configured and tuned Fortinet FortiGate 40F firewalls, integrating security telemetry with Wazuh for centralized SOC L2/L3 security operations.
- **Workshops & Training:** Delivered cyber hygiene workshops and threat awareness presentations to corporate clients.

CERTIFICATIONS

- | | |
|--|--|
| • CEH v11 – Certified Ethical Hacker (EC-Council) | • eMAPT – Mobile App Penetration Tester (eLearnSecurity) |
| • API-RTA – API Red Team Analyst (CyberWarFare Labs) | • CRTA – Certified Red Team Analyst (CyberWarFare Labs) |
| • CRTOM – Certified Red Team Operations Management | • CCIO – Certified Cyber Crime Intervention Officer (ISAC/NSD) |

KEY ACHIEVEMENTS & COMMUNITY LEADERSHIP

- **National Security Researcher:** Ranked among the Top 15 Security Researchers in India by NCIIPC (National Critical Information Infrastructure Protection Centre, Govt. of India).
- **Global Hall of Fame & Acknowledgments:** Secured 400+ government and enterprise web properties; received formal Letters of Appreciation and Hall of Fame honors from NASA, Government of India, Government of USA, and Government of Australia.
- **Enterprise Vulnerability Research:** Credited in Hall of Fame programs of Lenovo, Drexel University, Inflectra, and ACT; awarded \$20,000+ in private mobile bug bounty programs.
- **Security Contributions:** Official author/contributor to the Google Hacking Database (GHDB); published technical research on offensive attack vectors.
- **OWASP Salem Chapter Leader:** Spearhead regional chapter operations, organizing application security meetups, live threat demonstrations, and webinars for 1,000+ students and professionals.
- **Keynote & Guest Speaker:** Invited technical speaker on Cloud Attacks, Threat Intelligence, and API Security at VIT Chennai, Christ University (Foobar 9.0), Rajalakshmi Institute of Technology, and Computer Society of India and computer Society of India Coimbatore; Invited as Guest speaker at Theneer Idiaivelai formerly known as The social Media Company YouTube channel for security awareness to their internal team; gave interview to you tube channel as how I hacked NASA and other government entities.
- **Hackathon Judge & Mentorship:** Served as Technical Judge for Evolve 2.0 Hackathon (RIT Chennai) and mentored emerging cybersecurity professionals and Hack zen Hackathon 2026 at Sri Krishna College of Engineering where judge for 400+ students.

EDUCATION

Bachelor of Engineering (B.E.) in Electrical & Electronics Engineering (EEE) | AVS College of Technology (2016 – 2020)
